

EDUCATION IS FUN

We pride ourselves on developing a child in all areas... Although Academics and Christian Character Training are our main focus, the students need more than that and regular educational outings are a reward for diligent work.

The core of our system:

Individualization. A pupils progress is determined not by a standardized curriculum but by the child. In this way pupils master subject matter before proceeding. Above average pupils are not restricted.

Academic Excellence. Research done by the School of Tomorrow shows that pupils score significantly higher than those in mainstream schools on standardized achievement tests.

Character-building. The system's holistic nature ensures that pupils emerge well prepared for the challenges and opportunities that lie ahead.

Traditional Values. The curriculum integrates life-shaping values and biblical principles.

OUR SCHOOL

Set in the Eastern Highveld of Mpumalanga, the medium of instruction is English and we offer the following:

- Kindergarten "Step by Step" for ages 4 to 5
- Pre-school "With Ace and Christi" for ages 6-7
- ABC learning to read and write for age 7
- Grade levels 1-12

The Learning materials are adapted and approved for South Africa and students do qualify for entrance at local universities and abroad.

Mission Statement:

To teach our pupils the skills needed to survive in a rapid, continual changing environment, preparing the individual for the life ahead, with a solid Christian foundation.

CHAZON TEKNA

INDEPENDENT CHRISTIAN SCHOOL

A VISION FOR OUR CHILDREN

ABOUT US

Christian Education

Chazon Tekna follows the ACE system (Accelerated Christian Education). In this system, children are taught Christian values and character traits.

The students work and study at their own level and at their own pace. They are taught to take responsibility for their own learning and completion of work to be done. They set their own goals in order to achieve this. This insures that your child will be well-equipped to handle the challenges of working in a 21st century environment in their chosen career.

Students receive individual attention when needed and are encouraged to strive for excellence in

all they do. Our school is based on a merit system where good work is rewarded. Motivation and reward are the basis of our philosophy. We strive to build your child's character today to be outstanding in tomorrow's world.

SCHOOL HISTORY

The school was opened in January 2000 with 12 enrolled children and has since grown to more than 90 students.

Staff

Our staff consists of trained professionals who are well-equipped to handle the demands of the

modern era where technology is so important. We have qualified educators with specialization in Mathematics and Science, Languages and Computer Science.

Activities

Our school offers a variety of co-curricular activities that include Athletics, Chess, Table Tennis, Soccer, Netball and Dance.

Reaching out to the community

We are involved in community work and do outreaches to various surrounding towns, like visiting old age homes and care centres, bringing joy to the people there. Regular presentations and performances by the students are well-supported by the community.
